2025 Toyota Land Cruiser LC 78 | 2.8L Diesel | V4 | Manual Transmission

The 2025 Toyota Land Cruiser LC 78 continues the legacy of one of the most trusted off-road vehicles in the world. Built for durability, endurance, and reliability, this model is engineered for professionals, adventurers, and fleets that operate in the most challenging environments—from deserts to mountains, mines to remote villages.

Powered by a robust 2.8-liter V4 diesel engine, the LC 78 delivers excellent low-end torque and consistent fuel efficiency, even under load. The diesel configuration is designed for rugged use and long service life, making it ideal for regions where reliability and ease of maintenance are more critical than luxury.

The manual transmission (MT) provides full control over gear selection, offering precision and performance in off-road conditions where automatic gearboxes may fall short. The drivetrain is optimized for power and traction, ensuring the LC 78 can climb, crawl, and conquer with confidence.

With a classic boxy design, the LC 78 remains true to its utilitarian roots, offering a no-nonsense approach to transportation. Its high ground clearance, strong suspension system, and solid axle setup make it perfectly suited for off-road missions and heavy-duty use.

Vehicle Highlights:

Engine: 2.8L V4 Turbo Diesel – known for durability and fuel economy

Transmission: 5-speed Manual
