Description:

The 2025 Suzuki Baleno with the 1.5L engine is an updated version of the compact hatchback, known for its practicality, fuel efficiency, and modern features. Here's an overview of what the 2025 model offers:

Key Features of the 2025 Suzuki Baleno 1.5L:

Engine and Performance:

Engine: The 2025 Baleno features a 1.5L naturally aspirated 4-cylinder engine, producing around 104-110 horsepower and 138-140 Nm of torque.

Transmission: Typically paired with either a 5-speed manual transmission or a 4-speed automatic transmission (depending on the market and variant).

Fuel Economy: Known for its impressive fuel efficiency, the 1.5L engine should offer around 18-20 km/l (kilometers per liter) depending on the driving conditions.

Front-Wheel Drive: Like most hatchbacks in its class, the Baleno is front-wheel drive, making it a good choice for urban and highway driving.

Exterior and Design:

Dimensions: The Baleno has a compact footprint, making it easy to maneuver and park in tight spaces, with a length of approximately 3,990 mm and a width of 1,745 mm.

Modern Styling: The 2025 model features a more refined and contemporary design, with LED headlights, a larger grille, and new alloy wheel designs.

Aerodynamic Design: Improved aerodynamics with better body lines for enhanced fuel efficiency and performance.

Interior and Comfort:

Seating: Comfortable seating for up to 5 passengers with high-quality fabric or leather upholstery depending on the trim level.

Infotainment: The 2025 Baleno typically comes with a 7-inch or 9-inch touchscreen infotainment system, supporting Apple CarPlay, Android Auto, and Bluetooth connectivity.

Climate Control: Air conditioning with automatic climate control for added comfort.

Storage: The hatchback offers practical cargo space with rear seats that fold down to maximize storage capacity.

Technology and Safety:

Driver Assistance Features: The new Baleno may come with standard safety features such as ABS (Anti-lock Braking System), EBD (Electronic Brakeforce Distribution), dual front airbags, and rear parking sensors.

Advanced Safety: Higher trims may include more advanced safety technologies like lane departure warning, forward collision warning, rear-view camera, and blind-spot monitoring.

Touchscreen & Connectivity: Along with the standard infotainment, the vehicle may offer steering wheel-mounted controls and voice recognition.

Ride and Handling:

Suspension: The 2025 Baleno features a McPherson strut suspension at the front and a torsion beam axle at the rear, which ensures a comfortable and stable ride.

Handling: It's built to offer a smooth and agile ride, particularly in urban conditions, where it excels in maneuverability.

Fuel Efficiency:

As mentioned earlier, the 1.5L engine provides excellent fuel efficiency, making the Baleno an attractive option for those who prioritize economy over power.

Price: AED 53,000

Target Market: UAE (can be exported)
